Objective

Dedicated and detail-oriented Full Stack Developer with a passion for building seamless and efficient user experiences across the entire web application stack. Proven expertise in designing and implementing responsive, scalable web applications using **Next.js** and the **MERN stack**. Excels in collaborating with cross-functional teams to deliver high-quality solutions that align with business goals and user needs.

Experience

Lease Buy Sell / Mobile App Dev and Front End Developer

April 2025 - PRESENT, Gudgao

- Developed a full-featured website for listing properties for buy and sell, focusing on user-friendly filters and property detail pages for enhanced search experience .
- Built an advanced Admin Dashboard using React JS, enabling seamless API integration, complete CRUD operations, and analytics for property management .
- Created and launched a mobile app for brokers that includes real-time location tracking, allowing admins and clients to view current broker locations .
- Integrated features in the broker app for adding new properties, viewing and editing property listings, ensuring brokers can efficiently manage portfolios on the go .
- Played a key role in designing UI/UX from scratch across all platforms, ensuring consistency and usability for web and mobile users .
- Contributed to three major sub-projects: the property listing website, the admin dashboard, and the broker-focused mobile application .

Luit Valley / Front End Web App Developer

November 2024 - PRESENT, REMOTE

- Contributed to the development of 6 diverse web applications, with 3 currently live and built using **Next.js14**.
- Focused on building intuitive and responsive user interfaces, enhancing functionality across multiple projects.
- Developed an advanced **Admin Dashboard** featuring a **File Manager** and an integrated **Chat AI Bot**, designed as an all-in-one AI assistant for managing content across various social media platforms.

Axel Gaming / Fullstack Web App Developer

March 2023 - March 2025, REMOTE

- Spearheaded the design and implementation of a fully functional Gaming Store Web App using Next JS 14 with Typescript.
- Utilized Figma for comprehensive UI/UX design, translating designs into code for a seamless user experience.
- Developed an Admin Dashboard for efficient management of the gaming platform.

Aay Works / Front End Developer

January 2022 - December 2022, JAIPUR

- Contributed to the development of an Advanced Admin Dashboard using React JS.
- Responsible for API integration and full CRUD operations.
- Designed UI from scratch, playing a key role in three major projects centered around Admin Dashboards.

TieJet / Graphic Designer and Static Website Designer

January 2020 - October 2021, REMOTE

- Executed part-time responsibilities as a WordPress Website Designer, Content Creator, Graphics Designer, and SEO specialist.
- Worked on Astra Pro Theme, creating custom layouts using Elementor, and implementing WooCommerce
- Crafted mock-up boxes, posters, and other graphics using Adobe Photoshop.
